PROFESSIONAL SUMMARY

Motivated IT professional with experience in LMS content conversion, digital assessment development, and educational technology platforms, gained through a US EdTech client engagement at Straive. Strong academic background with hands-on exposure to Python, Django, REST APIs, and MySQL through applied projects and structured training. Comfortable working across the SDLC, collaborating with cross-functional and cross-timezone teams, and translating business requirements into accurate, production-ready configurations. Seeking to transition into a full-time Python/Django Developer role to build scalable, well-tested software.

CORE SKILLS

- Languages: Python, SQL, HTML5, CSS3
- Frameworks & APIs: Django, Django REST Framework (DRF), RESTful APIs, MVT Architecture
- Database: MySQL — Joins, Subqueries, Views, Stored Procedures, Functions, Transactions
- Developer Tools & Workflows: Git, GitHub, Visual Studio Code (VS Code), SDLC, Manual Testing
- Edtech & Platforms: Renaissance SchoolCity, D2L Brightspace, Canvas LMS

PROFESSIONAL EXPERIENCE

Straive, Chennai

Sep 2025 – Jul 2026

Junior Executive – Digital Assessment Configuration

Success Academy Project | SchoolCity Assessment Platform | Full-Time

- Developed and managed K–12 digital assessments for Success Academy (USA) using Renaissance SchoolCity, ensuring accurate content alignment, scoring logic, and seamless delivery across three trimesters, delivering 2,200+ Assessments.
- Configured question banks, answer keys, scoring rules, performance scales, scheduling, embargo settings, calculators, lockdown browser behavior, instructions, and reference sheets, achieving 100% compliance with business requirements.
- Applied updates and enhancements through sprint-based release cycles on Monday.com, collaborating with content, and QA teams across US and India time zones, which reduced release defects by 15%.
- Performed functional, integration, and regression testing of assessment configurations and scoring workflows, resolving defects prior to production and maintaining a zero-critical defect rate.
- Linked completed assessments in SchoolCity to eSchoolData gradebooks, enabling real-time score transfer and supporting on-time exam administration for thousands of students.

Consultant Trainee – LMS Quality Assurance (Manual Testing)
Stride Project | D2L to Canvas LMS Migration | Contract Role

- Performed end-to-end manual testing for 230+ e-learning courses migrated from D2L (Brightspace) to Canvas LMS.
- Executed functional, regression, UI, and content testing to validate course functionality after migration.
- Created and executed test cases, identified defects, and reported issues in Jira with supporting evidence and documentation, improving QA efficiency by 20%.
- Verified quizzes, assignments, multimedia content, navigation, and gradebook functionality to ensure error-free migration quality and consistent user experience.
- Collaborated with migration and development teams to resolve defects and supported post-deployment validation for successful, on-time releases with zero critical issues.

PROJECTS

VibeWear – E-Commerce Clothing Website *Python, Django, HTML, CSS, MySQL*

- Developed a full-stack e-commerce web application using Python, Django, HTML, CSS, JavaScript, and Bootstrap.
- Ensured secure user authentication, product catalog, search, pagination, and shopping cart functionality.
- Built responsive user interfaces and integrated Django ORM for efficient database management and CRUD operations.
- Applied Django's MVT architecture and best practices to deliver a scalable and maintainable web application.

Wood Analysis Platform *Python, Django, MySQL, Machine Learning, MLPRegressor*

- Developed a machine learning-based web application using Python, Django, and Scikit-learn to analyze wood characteristics and generate predictive results.
- Built and trained an MLPRegressor model after preprocessing the dataset with Pandas and NumPy.
- Integrated the trained model into a Django backend to provide real-time predictions through a user-friendly web interface.
- Implemented data validation, model inference, and responsive frontend components to deliver accurate and efficient analysis.

EDUCATION

Master of Computer Applications (MCA) *2022 – 2024*
SRM University, Chennai *CGPA: 9.16*

Bachelor of Computer Applications (BCA) *2019 – 2022*
Jaya College of Arts and Science, Thiruninravur *CGPA: 7.7*

COURSES & CERTIFICATIONS

- Python & Django Development — FITA Academy
- Machine Learning Fundamentals — Corizo EdTech Company
- Python Programming & Django Framework — Shiash Info Solutions
- Crash course on python — Coursera
